

# how to maintain your cork bag

## THANK YOU FOR CHOOSING BAG AFFAIR

We make high quality business bags made to last.  
With a little love & care they can live with you for many years.

### Here some tips to increase the lifespan of your bag:

- Cork is a natural material that needs natural cleaning methods.
- Clean your cork bag with warm water & soft cloth or sponge.
- If needed you can use natural soap such as curd soap.
- Let it dry in a place out of the sun.
- Never use chemical or acid cleaning soap on your bag!
- Cork is easier to clean than leather, no oils are needed.
- Cork gets softer by time, remains lean without breaking

water resistant

light weight

cruelty free

100% vegan

## did you know?

The cork used to produce your Bag Affair comes from Portugese cork oak trees. These trees are never cut down. The cork is harvested every 9 years & will always grow back. The forest offers a perfect ecosystem & cork forestation is the most sustainable forestry. A cork tree can produce up to 10.000 kg in its lifetime.

## Some facts about cork

- Absolutely natural
- Antistatic (dust won't stick to it)
- Breathable
- Lasting, keeping its shape & resistance
- Perfect for allergic persons as dust & mites cannot stick to the cork
- Recyclable & biodegradable
- Sustainable and friendly to nature
- Warm & soft touch
- Easy to clean
- Naturally waterproof
